WHEELING COULDN'T WIN.

At New Castle, Through the Infliction of a Local Umpire. Although the Wheeling club officials

do not care to make a "holler" now that the fight is over and the pennant has gone to New Castle, yet it has learned that the Quaker organization was only enabled to win the "rag" by very un-aportsmanlike conduct. The Intelligenenabled to win the "rag" by very ungortsmanlike conduct. The Intelligencer learns this on the authority of a Wheeling "fan" who witnessed the cosing games at New Castle. This gentleman makes very serious allegations against the New Castle. This gentleman makes very serious allegations against the New Castle people. First, he says that the regular umpire, Twineham, was taken in hand by certain people and placed in such a condition that he was unable to act in his official capacity; then he was spirited out of town and through the failure of President Power to send some member of his regular staff, the series with Wheeling was umpired by a local man, Mayne, Mayne, it is further alleged, had but one object in view—to prevent Wheeling from winning, and this he did most effectually. In the first game, Parvin let down the New Castles with but four hits, while Wheeling got eleven clean ones, (though the official scorer allowed but eight), and the game should, have been Wheeling's, but Mayne saw to it that enough fake bases on balls and sufficient queer base decisions were given against Wheeling to make it absolutely, impossible for the Stogles to win. This ame policy was pursued in the four ofter games of the series, with the result that New Castle beat out Mansfield ne game at the finish, Mansfield has a team of rowdles who will stop at nothing, but until the Wheeling-New Castle series it was thought the Penagivanians were not in Mansfield a class.—now we don't think so.

There is also comment upon the fallure of President Power to send a regular umpire to New Castle after Twineham's inglorious exit. Four of the eight teams had completed their season, and it would have been a proper move for Power to send two umpires each to New Castle and Mansfield for the two deciding series. Instead of this he allowed Wheeling to be inflicted with a local umpire at New Castle, in the face of the fact that he could have sent Cartuhers or McCredie, Colgan being assigned to Mansfield for the series with Youngstown. Decidedity, this w cer learns this on the authority of a

A WHEELING MAN'S IDEA.

Would Have Eastern and Western

A well known Wheeling man—who is also a fan—comes to the front with a novel proposition, which, whether practicable or not, appears decidedly attractive on paper. He works his scheme out on the supposition that there will be two "big" leagues next season, working harmoniously tog-ther. His idea is to form two auxiliary leagues, one in the east and the other in the west. The latter, for instance, would be composed of Wheeling, Columbus, Dayton and Toledo, four towns that are ideally bunched. Wheeling would be auxiliary to one club in the National and one in the Association, these to furnish Wheeling with a sufficient number of their reserve players to form a team; the "big" clubs to have privilege of rectaining their players at any time, but in return to "farm" out other players in their places; the "auxiliary" salary limit to be about \$1,200, and the "big" clubs to pay any excess in the salaries of the players they furnish. The schedule of the little league to be arranged with open dates, one or two each week, to be filled by games with the clubs of the National and Association. The advantages of such an arrangement are obvious; it would give the cities of the auxiliary league better ball than they have had in the past, and it would systematize the "farming" evil in such a manner that its obnoxious features would probably be largely eliminated.

WON BY CHOYNSKI.

The Californian Knocks Out Jim Hall in Three Rounds.

in Three Rounds.
LOUISVILLE, Ky., Sept. 25.—Joe
Choynski, of California, knocked out
Jim Hall, of Australia, in the third
round to-night, before the Nonparell
Athletic Club, at Music Hall, in the
presence of some 2,500 people. It was
announced that the fight was for the light heavy-weight championship, limlight heavy-weight championship, limited to twenty rounds, and for a division of the box receipts. Hall weighed 163 and Choynski 160 pounds. In Hall's corner were Frank Kelly, of Cincinati; Patsy Grubbs, Louisville; Dock Hottum, Memphis, and Australian Jimmy Ryan.

Tom Williams, of England, Lawrence Fitzpatrick and Jim Watts were behind Choynski.

Fitzpatrick and Jim Watts were behind Choynski.
The fight was lively enough while it lasted, with the honors possibly in Hall's favor during the first two rounds, but in the third. Choynski used his right and left effectively a number of times and when but a half minute of the third round remained. Choynski landed several right and lefts in succession, sending Hall to the floor, where he remained until carried to his corner, after the referee had counted the ten seconds. Instantly there were cries of "fake" from all quarters of the hall, and a more disappointed crowd never left a ringside in this city.

It was a right hook on the jaw that sent Hall down, and from the spectators standpoint was not delivered with sufficient force to have put the Australian out. Choynski, so Hall claims, landed a left below the belt, and near the groin, which Hall explained after the fight, took all the steam out of him.

THE LOUISVILLE RACES. The Commercial Club Stake Won by

Robert C. Meyer, chairman of the Democratic county committee and editor and owner of the Bellaire Herald, will have charge of the Evening Tribune, when the deal is closed with Col-Poorman for that paper, It is understood that Colonel Poorman will devote his attention to the Ohlo Bi-Metalist, which he started three years ago, and to outside newspaper correspondence. The colonel is a ready writer and could doubtless be much more comfortable rid of the responsibility of newspaper plants and annoyances.

John Tachappat, while engaged fin cleaning out a storeroom adjoining Ault's flour mill yesterday, was assalled by women who seemed to think they had a prior claim in renting the storeroom. Local Happenings of Importance in a Busy Town.

Busy Town.

No direct work on the Riverside's new mills will begin this year, for the arching of Hoggs' run and other preparatory details will consume several months. On the extensions of its plant within the last three years the Riverside has given employment almost continuously to a small army of men, and the additions planned will require this for two years more. When all is done and the entire plant is in operation, with the consequent increase in the number of regular employes, of whom many will live in Benwood, or out the Boggs' run section, henwood's population ought to climb past the \$,000 mark, which would entitle the town to free postal delivery.

Woman's general health depends largely upon the local health of the organs distinctively feminine. Arregular periods is maidenhood, followed after marriage by debilitating drains, and the common consequences of motherhood, infammatise, ulceration, and displaced organs, ruin the general health. These conditions are entirely removed by "Favorite Prescription," the body blossoms in a new beauty, and the mind is cuttienly free from gloom and despondency.
